Star Deck Stainless Steel Tread Plate

The DCN STAR DECK® is a stainless steel tread plate based on formed sections with a no sharp edge pattern, ideal for use for walkways, gantries, steps etc.

- Super non-slip
- Hygienic easy clean lift up design
- Special forms
- Rigid construction reduces costly frames
- Rapidly becoming the food industry standard
- No sharp edges
- Available from stock
- 304 st.st. standard
- 316 st.st. optional

Custom made to suit your individual requirements, be it steps, spiral staircases or decking.

Full fabrication services available for the design and build of complete walkways, gantries, steps etc.

Conforms to BS 4592: Pt3 1987 for heavy duty loading.
